

ELDERCAP

Eating one of these white and gray mushrooms causes the eater to look much older for 1 hour. This magical effect is an illusion that can be ended with a *dispel magic* spell.

EXECUTIONER'S HOOD

Each of these mushrooms has a black, hood-shaped cap. Any creature that consumes an executioner's hood must succeed on a DC 12 CON Save or fall into a cataleptic state that is indistinguishable from death. This magical effect is identical to that of the *feign death* spell (including 1 hour duration).

PRICKLENOGGIN

Each of these mushrooms has short, prickly spines growing out of its red cap. Hats made from pricklenoggin caps are popular in the fey courts and considered very fashionable. Most tiny Fey would be grateful to receive one as a gift.

BUTTERFLY SADDLE

Each of these bright yellow toadstools has a ruffled, saddle-shaped cap properly sized for a pixie or sprite to sit on. They taste like butter and can be used as a substitute for that ingredient in recipes.

HUMMINGBRELLA

A hummingbrella is a colorful mushroom with a frilly, parasol-shaped cap that drips sweet nectar and attracts hummingbirds. Eating one has the same effect as drinking *antitoxin*.
